CITY PTL

Modern post top lantern

Lighting to Reduce Energy Consumption

Tamlite luminaires are built to reduce unnecessary upward illumination and energy consumption, through design and optical control, creating the ideal exterior environment.

Lighting for Dark Sky

Whether it's for local wildlife, residential areas or those just want to see the night's sky, reducing upwards illumination from external luminaires delivers considerable benefits for all. Tamlite develops solutions to reduce this upward illumination, creating the ideal exterior environment.

Lighting for Crime Prevention

A well-designed urban lighting system can significantly reduce night crime, by providing illumination for pedestrians to see and feel safe. Tamlite designs luminaires to provide the ideal outdoor illuminations to enhance security and reduce crime.
